Practice Safety First
- Practice your ABC! Ensure your tires have A ir, your B rakes operate well, and your C hain functions smoothly.
- Be sure to have the required bike lights and reflectors. You want to be visible if you’re riding at night.
- Properly secure accessories to carry large items. If attaching bicycle accessories, such as a rack, basket, pannier or trailer, be sure they do not obstruct the reflectors, lights, or pedals.
- Wear a helmet. In most bicycle crashes, your head will hit first if you fall. Protect it. CA law requires all those under 18 to wear a helmet when riding.

Avoid Bike Theft
- Always lock your bike. Even if you’re leaving it for only a minute.
- Lock your bike where it will be visible. Thieves usually don’t like an audience.
- Park at a bike rack, parking meter, street sign or bike locker. Make sure your bicycle is not blocking the way for pedestrians. Do not lock bicycles to trees.
- Take your valuables with you. Remove any parts that you can’t lock (bike seat, bike lights, etc.)
